

Form to stop sharing Mental Health/HIV Information

What is HealthInfoNet?

HealthInfoNet is a secure computer system that brings your health information from different healthcare providers into one statewide electronic health record. Your providers use this information to make better decisions about your care. It can also help them prevent mistakes, especially in an emergency. Your health record includes information about your medicines, allergies, test results, and more.

Are my records private and secure? HealthInfoNet encrypts all information and uses secure connections. Only those involved in your care can look at your information. To find out who has seen your record, visit www.hinfonyet.org/audit. No system is completely secure, but HealthInfoNet makes every effort to keep your records safe.

Maine has separate rules about Mental Health/HIV information. This information is kept private *unless you indicate you want it shared*. You can authorize any provider to see your information at any time. Your other providers will only be able to see your information if you have a medical emergency. Your choice will not affect your ability to get medical care. If you decide later that you want to share your information again, contact HealthInfoNet or visit www.hinfonyet.org/patients/your-choices.

I choose not to share my Mental Health/HIV Information.

Fill out this form and mail it to HealthInfoNet, 125 Presumpscot Street, Box 8, Portland, ME, 04103 or fax it to 1-207-541-9258.
